

LEATHER N°1 RADERBELT®

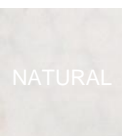

Leather N°1 is a natural full grain leather gross with mineral tanning followed by intense oil food. It is conceived to combine resistance and malleability. This beef and bull leather is dedicated to molded parts. Mineral leather, it reacts well in contact with steel. This leather will perfectly match the metal tools, their evolutions in time while resisting the strong mechanical and thermal stresses. Leather ideal for seals.

Thickness: 4-4.5 mm

Dyeing: Non-tinted

Coating: Natural
