

LEATHER N°21D RADERBELT®

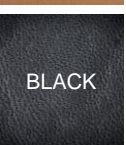

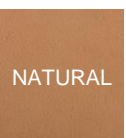

Full-grain leather with vegetable tanning of beef and bull, the leather N°21D has a first food in oil. It is then fed at 30%, plunged by hand into a bath of hard fats. Leather N°21D is getting stronger as time goes on. It is a smooth and firm leather, pleasant to work, able to absorb shocks and to be molded. Its natural color gives it an elegant patina. Leather nourished in excess, it will be able to live outside and keeps a constant touch.

Thickness: 3-4,5 mm

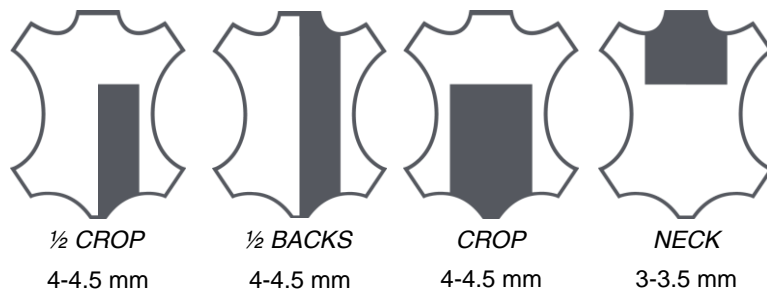

Dyeing: Non-tinted for natural color, tinted in bath for black color

Coating: Natural or aniline
